For governments a net-zero target is one that covers all scope 1 emissions in their jurisdiction. For business it usually covers scope 1 and 2 emissions, although some companies also include some scope 3 emissions. The Science Based Targets Initiative is currently working on a standard for companies. roadmaps, to reduce emissions moREnewable100 (RECs & Offsets) Reach Global Sustainability Goals with Renewable Energy Certificates and Carbon Offsets Trade RECs & Carbon with us Trade Local & International Environmental Attribute Certificates Climate Active Achieve Climate Active Carbon Neutral Certification Net Zero Roadmaps Identify opportunities and build achievable pathways Carbon and Energy Strategy Integrate your carbon and energy strategies NGERs Reporting National Greenhouse Emissions Reporting Grants and Programs Review the latest grants and programs Energy Close Energy Open Energy Energy We offers comprehensive energy services, focusing on efficiency improvements, cost reduction, monitoring, benchmarking and strategic sourcing for sustainable and positive environmental impacts Grants and Program Review the latest grants and programs Energy Audit & Assessments Identify cost and emissions reductions Energy Optimisation Metering & Monitoring, Feasibility Studies, EnMS and ISO50001, & Benchmarking Strategic Energy Sourcing Feasibility & Assessments: Renewables, PPAs or Certificates Compressed

Avoided emissions covers activities that alter behaviour that would have otherwise caused emissions such as energy efficiency improvements or avoided deforestation. Removal covers activities that permanently remove CO₂ from the atmosphere such as new forestry plantations, soil carbon improvement or carbon capture and storage. certificates Live Certificate Prices The value of certificates change day-to-day, check today's prices Solar VEECs (VEU PBA) VEU PBA for Large-scale Solar Measurement & Verification (VEU & ESS) M&V; for Large C&I; Efficiency Projects (VEU PBA & ESS PIAM&V;) BESS Calculator Estimate the Peak Reduction Certificate revenue available to your NSW battery project in minutes ERF & Carbon Credit Registration ACCUs for Emission Reduction Projects Boiler Upgrades (VEU & ESS) NSW & VIC Boiler Rebates REC Registration (I-RECs & LGCs) Register renewable assets for I-RECs and LGCs Trade RECs & Carbon with us Trade Local & International Environmental Attribute Certificates moREnewable100 (RECs & Offsets) Reach Global Sustainability Goals with Certificates and Offsets Deemed Certificates (VEU & ESS) NSW & VIC Rebates Global Certificates Environmental Attribute Certificates Australian Programs Australian EAC Programs Case Studies Sectors Articles Team More Close More Open More Northmore Gordon Learn more about Northmore Gordon with the latest news and insights, were to find us, and the extensive terminology used in emissions reductions About Us Who we are & what we do in energy efficiency & decarbonization. Glossary Define key terms in emissions reduction. Government Grants/ Program to Know About – September 2026 Update (Australia) Danielle O'Reilly May 1, 2026 Articles Share this article If you're searching for government grants in Australia this month, September brings a strong pipeline of funding opportunities supporting innovation, commercialisation, industrial decarbonisation and business growth. Governments continue to invest in technologies that will strengthen Australia's future industries while helping businesses reduce emissions and accelerate the transition to a low-carbon economy. For businesses developing new products, scaling clean technologies or investing in advanced manufacturing, now is an ideal time to begin preparing competitive grant applications. Open Government Grants for Australian Industry – September 2026 Future Made in Australia Innovation Fund (Australia) Supports businesses developing innovative technologies that strengthen Australia's sovereign manufacturing capability, improve productivity and accelerate commercialisation across priority industries. Funding available for eligible innovation and manufacturing projects. Clean Technology Innovation (CTI) Grant Helps NSW organisations pilot, demonstrate and commercialise lab-proven clean technologies with significant emissions-reduction potential. Ideal for organisations advancing clean technologies from laboratory validation towards commercial deployment. Closing 6th September Singapore Pilots for Energy & Enterprise Decarbonisation (SPEED) Supports pilot projects that help businesses demonstrate innovative decarbonisation technologies across industrial and commercial facilities in Singapore. Designed to accelerate adoption of low-carbon technologies with strong commercial potential. SME Industrial Decarbonisation Fund Provides funding to small and medium-sized manufacturers investing in energy efficiency, electrification and emissions reduction projects that improve competitiveness while lowering operating costs. Supports practical projects delivering measurable energy and carbon savings. Territory Growth Initiative (NT) Supports Northern Territory businesses investing in expansion, innovation, advanced manufacturing and economic development projects that create long-term regional growth. Available across a range of industries with a focus on business capability and investment. What the Current Funding Landscape Tells Us August highlights a clear shift in government funding priorities: Greater investment in innovation and commercialisation Increased support for advanced manufacturing and future industries Strong focus on

bringing clean technologies to market Continued investment in industrial decarbonisation and energy productivity Governments favouring projects with strong commercial outcomes and long-term economic impact Businesses investing in innovation, technology development and industrial transformation are well positioned to take advantage of the current funding environment. Early planning remains one of the biggest factors in developing a competitive grant application. Stay Ahead of Grant Openings The hardest part of government grants isn't writing the application – it's knowing when the right program opens. Follow Northmore Gordon on LinkedIn or join our grants newsletter to be the first to know when new programs, including ARENA manufacturing grants go live. We track what's open, what's closing, and what's coming next. Grants , Grants & Funding You may also like: How Government Energy Grants typically work.
