For governments a net-zero target is one that covers all scope 1 emissions in their jurisdiction. For business it usually covers scope 1 and 2 emissions, although some companies also include some scope 3 emissions. The Science Based Targets Initiative is currently working on a standard for companies. roadmaps, to reduce emissions moREnewable100 (RECs & Offsets) Reach Global Sustainability Goals with Renewable Energy Certificates and Carbon Offsets Trade RECs & Carbon with us Trade Local & International Environmental Attribute Certificates Climate Active Achieve Climate Active Carbon Neutral Certification Net Zero Roadmaps Identify opportunities and build achievable pathways Carbon and Energy Strategy Integrate your carbon and energy strategies NGRS Reporting National Greenhouse Emissions Reporting Grants and Programs Review the latest grants and programs Energy Close Energy Open Energy Energy We offers comprehensive energy services, focusing on efficiency improvements, cost reduction, monitoring, benchmarking and strategic sourcing for sustainable and positive environmental impacts Grants and Program Review the latest grants and programs Energy Audit & Assessments Identify cost and emissions reductions Energy Optimisation Metering & Monitoring, Feasibility Studies, EnMS and ISO50001, & Benchmarking Strategic Energy Sourcing Feasibility & Assessments: Renewables, PPAs or Certificates Compressed Air Services Air Compressor Leak Audits, Surveys and Benchmarking EEO Assessments (SG) Singapore Energy Efficiency Assessments Energy Procurement Navigate energy markets with confidence Virtual Environmental Manager Leverage our teams wide experience Certificates Close Certificates Open Certificates Certificates Our Environmental Attribute Certificate services help businesses accelerate technology adoption, improve project ROI, and manage claims of renewable energy, energy efficiency and carbon offset 1 carbon offset = 1 tonne of CO₂-e avoided or removed

from the atmosphere. Avoided emissions covers activities that alter behaviour that would have otherwise caused emissions such as energy efficiency improvements or avoided deforestation. Removal covers activities that permanently remove CO₂ from the atmosphere such as new forestry plantations, soil carbon improvement or carbon capture and storage.

Our [Experience](#) NG has a specialist team of Climate Active registered consultants and is a registered climate active organisation Has successfully helped our customers achieve Climate Active Certification Our services extend beyond Net Zero roadmaps Is your business in Australia looking to decarbonise, reduce energy costs, and earn Climate Active certification? As registered Climate Active Consultants, we specialise in facilitating the entire certification process for you. Our expertise and commitment to a sustainable future make us your trusted partner for a greener and more profitable business. [Unlock the potential for sustainability and savings with Northmore Gordon as your Climate Active Consultants.](#) We understand the unique challenges and opportunities faced by Australian businesses. Our team of experts will work closely with you to develop customised strategies that align with your objectives, whether it's reducing energy consumption, achieving carbon neutrality, or maximizing government incentives. [Climate Active Certification](#) Why Northmore Gordon? [Benefits of becoming certified](#) [Terminology](#) Why Northmore Gordon? We are a Climate Active Climate Active is an accreditation program for Australian companies to certify their organisations, products, services, events, buildings or precincts as carbon neutral. The program is backed and administered by the Australian government. Companies have to measure their scope 1, 2 and material scope 3 emissions, reduce where possible and offset the remainder by purchasing and retiring offsets. Allowed offsets are LGCs for scope 2 and ACCUs, CERs, RMUs, VCU's or VERs for scope 1 or 3 emissions. Annual reporting is required and published on the Climate Active website. More registered consultant, Climate Active organisation, and offer a Climate Active Service. We have a track record of successfully executing numerous projects related to net zero emissions roadmaps, carbon emissions reduction, and various sustainable strategies. Our experience spans a wide range of industries and sectors, making us a trusted partner in helping organizations meet their sustainability goals. Our services extend beyond just net zero emissions roadmaps. We specialize in conducting Greenhouse Gas Emissions Inventories and carbon accounting, ensuring that your organization gains a comprehensive understanding of its emissions profile. We tailor solutions to your unique needs and circumstances; we understand that each organization has its own set of challenges and objectives when it comes to sustainability. [Benefits of becoming certified](#) Lower your company's emissions & save on energy costs. Increase corporate reputation, including brand and image. Connect better with the community and potential to align with SDGs. Trusted by over +700 Australian

Companies Internationally recognised and accepted. Terminology What is Climate Active? The Climate Active Carbon Neutral Standard, administered by the Australian Commonwealth Government, is the country's primary guideline for businesses pursuing voluntary climate action, helping them achieve carbon neutrality. It measures, reduces, and offsets carbon emissions promoting a sustainable future. The Climate Active stamp drives community engagement and promotes operational savings, improved efficiencies and positive recognition for the company. What is Carbon Neutral The act of offsetting all scope 1, 2 and 3 emissions associated with a product or service. ? Being carbon neutral involves minimizing emissions whenever feasible and offsetting any remaining emissions by supporting carbon offset initiatives, ultimately achieving a net zero carbon footprint. Unlocking Business Success: The Benefits of Becoming Climate Active Certified Why Hiring a Consultant is Your Best Bet for Climate Active Certification in Australia Why Your Business Should Make Climate Active Certification a Priority in 2024 Climate Active Contact Form Please fill out the form below if you are interested in becoming Climate Active Certified and we will be in touch.
