For governments a net-zero target is one that covers all scope 1 emissions in their jurisdiction. For business it usually covers scope 1 and 2 emissions, although some companies also include some scope 3 emissions. The Science Based Targets Initiative is currently working on a standard for companies. roadmaps, to reduce emissions moREnewable100 (RECs & Offsets) Reach Global Sustainability Goals with Renewable Energy Certificates and Carbon Offsets Trade RECs & Carbon with us Trade Local & International Environmental Attribute Certificates Climate Active Achieve Climate Active Carbon Neutral Certification Net Zero Roadmaps Identify opportunities and build achievable pathways Carbon and Energy Strategy Integrate your carbon and energy strategies NGERs Reporting National Greenhouse Emissions Reporting Grants and Programs Review the latest grants and programs Energy Close Energy Open Energy Energy We offers comprehensive energy services, focusing on efficiency improvements, cost reduction, monitoring, benchmarking and strategic sourcing for sustainable and positive environmental impacts Grants and Program Review the latest grants and programs Energy Audit & Assessments Identify cost and emissions reductions Energy Optimisation Metering & Monitoring, Feasibility Studies, EnMS and ISO50001, & Benchmarking Strategic Energy Sourcing Feasibility & Assessments: Renewables, PPAs or Certificates Compressed Air Services Air Compressor Leak Audits, Surveys and Benchmarking EEO Assessments (SG) Singapore Energy Efficiency Assessments Energy Procurement Navigate energy markets with confidence Virtual Environmental Manager Leverage our teams wide experience Certificates Close Certificates Open Certificates Certificates Our Environmental Attribute Certificate services help

businesses accelerate technology adoption, improve project ROI, and manage claims of renewable energy, energy efficiency and carbon offset 1 carbon offset = 1 tonne of CO₂-e avoided or removed from the atmosphere. Avoided emissions covers activities that alter behaviour that would have otherwise caused emissions such as energy efficiency improvements or avoided deforestation. Removal covers activities that permanently remove CO₂ from the atmosphere such as new forestry plantations, soil carbon improvement or carbon capture and storage.

Latest News Stay informed on industry developments. Government Updates Track policy changes impacting your energy use. Accreditations See our certifications for trusted service. Glossary Define key terms in emissions reduction. Refrigerated Display Cabinets Don't miss out on the rebate for your new energy-efficient fridge or freezer What we'll be covering Why Upgrade? What are the rebates worth? How does the incentive work? Eligible Upgrades Talk to us about how you can further reduce your payback with the latest Tax Cuts. The VEU Victorian Energy Upgrades is a Victorian government energy efficiency program that gives every Victorian household and business the opportunity to receive rebates or discounts on energy saving products. and NSW ESS The NSW Energy Savings Scheme (ESS) provides financial incentives to install, improve or replace energy savings equipment and appliances in NSW households and businesses. The ESS was established in 2009. Financial incentives are in the form of tradeable certificates, called energy savings certificates (ESCs). Generally, householders and businesses who fund energy savings activities transfer the right to create ESCs to Accredited Certificate Providers (ACPs) in return for a discount on the cost of the energy savings activity. The MWh savings from the project determines the number of ESCs that can be created. The ESS works by allowing ACPs to create and register ESCs for energy savings that are supported with appropriate evidence. ESCs are then purchased each year by mainly electricity retailers operating in NSW to meet their share of a legislated annual energy savings target. Programs fund a number of incentives that help businesses save money and become energy efficient. The refrigerated display cabinets (RDC) rebate allows you to purchase new energy-efficient commercial refrigeration and claim a rebate from the scheme. The size of the rebate depends on the program and model but can often be worth more than AU \$800. Check out our examples below or talk to our team and they will walk you through the ins and outs. Ready to claim? Download your form here This incentive is available for Victorian and New South Wales Businesses Only. Why Upgrade? Save money on your energy bills Low maintenance, high efficiency Reduce greenhouse gas emissions It's time to replace equipment that is no longer reliable and get a benefit for doing so What are the rebates worth? Here is an example of popular models – Talk to us today to calculate your exact costs and savings. To get a more detailed understanding of payback call us to walk you through your options.

Make/Model	Approx. NSW Rebate	Approx. VIC Rebate
SKOPE/VF1500X N/A	\$287	\$287
SKOPE/VF1300X	\$310	\$266
SKOPE/OD1100-2 N/A	\$221	\$221
SKOPE/BME1200N-AC	\$840	\$133

How does the incentive work? Purchase an eligible high-efficiency refrigerated display cabinet (RDC Refrigerated Display Cabinet) Install the product as per the recommended guidelines Fill out the claim form and attach your proof of purchase Email your form to certificates@northmoregordon.com You should see the rebate paid into your bank account within 2 weeks Get In Touch Eligible Upgrades If you purchase new

energy-efficient commercial refrigeration that is listed below you may be eligible for an upgrade. See [here](#) to view the full list including make and model. Upright display & storage fridges Upright display & storage freezers Compact display fridges Open deck fridges Talk to us about how you can further reduce your payback with the latest Tax Cuts . Request Call Back Applicable Building / Sites Commercial Buildings Restaurants, Cafes and Hospitality Supermarkets and Service Stations Applicable States VIC (State Scheme) NSW (State Scheme) Key Person Patrick Blain General Manager, Operations Patrick holds a Bachelors of Science and Bachelors of Engineering in Mechanical & Manufacturing from the University of Melbourne. Contact Patrick Related Links VIC – Victorian Energy Upgrade (VEU) Scheme NSW – Energy Savings Scheme (ESS) Partner with us Frequently Asked Questions What type of grant am I eligible to get with a refrigeration upgrade? Depending on where your location is you may be eligible for the VIC or NSW state scheme. How do I access the funding? Like all government programs, there are specific evidence and requirements to access the funding. Fill in the form on this page or talk to Northmore Gordon or your installer before your upgrade to make sure you meet all the requirements. How long does it take for the incentive to come through? The incentive payment can take as little as 2 weeks to be seen in your account. Who can access the Refrigerated Display Cabinets Rebates? All business customers are able to receive incentives under these schemes as long as the product is eligible. Northmore Gordon can work with your installer to access the funding as part of the installation or we can work with you directly. How much I will get back? Contact us to get a free estimate of the upgrade value What if I have already purchased the product, am I still eligible for the rebate? It depends on your state scheme. If you are in Victoria, yes, you can claim after the fact. If you are in NSW, no, as you need to nominate before it is installed. Talk to us or get your installer to contact us regarding the requirements each scheme.
